HAMZA HAMID

Full-Stack Web Developer | React.js | Next.js | C# (ASP.NET) | SQL | Azure

Lahore, Pakistan

0315-4287721 | hamza.hamid9055@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Full-Stack Developer with 2+ years of experience in React.js, Next.js, TypeScript, and C# (ASP.NET). Skilled in building modern, scalable web applications, developing RESTful APIs, managing SQL databases, and integrating with Azure services and Microsoft Graph APIs. Adept in both front-end and back-end development with a strong focus on clean code, responsiveness, and collaboration in agile environments.

TECHNICAL SKILLS

- **Front-End:** React.js, Next.js, HTML, CSS, JavaScript, TypeScript, Tailwind CSS, Bootstrap, AntDesign, SASS/SCSS
- **Back-End:** C#, ASP.NET, REST APIs, SQL Tables, Azure Blob Storage, Outlook Integration
- **Databases:** SQL Server
- **Tools & Technologies:** Git, Azure, SignalR, Chrome DevTools, Agile Methodology
- **Other:** Responsive Design, UI/UX Principles, Cross-functional Collaboration

EXPERIENCE

Full-Stack Developer

ItTrends   **Jan 2023 – Present**
- Built modern, responsive UIs for company websites (itTrends, Plusnor) using React, JavaScript, and TypeScript.
- Optimised front-end performance and ensured cross-browser compatibility.
- Collaborated closely with designers to implement clean, accessible UI/UX.
- Developed RESTful APIs using C# (.NET) for core business logic and data processing.
- Managed SQL Server databases, created stored procedures, and ensured data integrity.
- Integrated Azure Blob Storage for secure document uploads.
- Enabled Microsoft Outlook email functionality using Microsoft Graph API.

Front-End Developer   **Feb 2022 – Dec 2022**
OrderNation
- Developed responsive and mobile-friendly front-end layouts for e-commerce and order management platforms.
- Converted UI/UX designs into clean, reusable components following best coding practices.
- Ensured cross-browser compatibility and optimized page load performance for better user experience.

PROJECTS

EquiNet (Norway-based)
Service that brings horse trainers, riding schools, and students together
Role: Full Stack Engineer (.NET, React.js)
- Developed a full-stack web platform with React.js (TypeScript) on the frontend and ASP.NET Core on the backend.
- Implemented features like lesson scheduling, trainer/student dashboards, course management, chat, and Stripe-based payments.
- Designed intuitive UIs and integrated secure backend services for managing users, trainers, and schools.

Tech Stack: React.js, TypeScript, ASP.NET Core, Entity Framework Core, SQL Server, Stripe API

Registo (Norway-based)
Financial and task management platform for accounting firms
Role: Full Stack Engineer (.NET, React.js)
- Built a scalable, multi-tenant system for managing business clients, featuring contract e-signing, automated task scheduling (e.g., VAT filing, payroll), and client-specific accounting workflows.
- Developed real-time live messaging using SignalR, enhancing communication between accountants and clients directly within the platform.
- Created user-facing dashboards, reporting tools, and integrated file uploads and Outlook email sync via Microsoft Graph API.

Tech Stack: React.js, TypeScript, ASP.NET Core, Entity Framework Core, SQL Server, SignalR, Microsoft Graph API

TalkIt

A real-time communication tool for doctors and patients

Role: Front-End Developer (Next.js, Tailwind CSS)

- Built responsive UI components using Next.js and Tailwind CSS for a web platform designed to help doctors communicate with patients during consultations.
- Integrated APIs to handle real-time audio-based interactions, where the doctor's speech is sent to the backend for transcription and message generation.
- Displayed AI-generated conversation notes and summaries on the doctor's interface, ensuring a smooth and intuitive user experience.

Tech Stack: Next.js, Tailwind CSS, React.js, REST APIs

ItTrends & Plusnor

Responsive websites for IT services and consulting businesses

Role: Front-End Developer (React.js, HTML, CSS)

- Developed clean, responsive layouts using HTML, CSS, and React.js, aligned with modern design and accessibility standards.
- Created structured, mobile-friendly components to ensure smooth navigation and a consistent user experience across devices.
- Collaborated with the design team to implement branding and visual identity through custom styling and layout adjustments.

Tech Stack: React.js, HTML, CSS, JavaScript

EDUCATION

BS Computer Science

Virtual University, Pakistan
